

QUALIFICATIONS PACK - OCCUPATIONAL STANDARDS FOR HANDICRAFTS AND CARPET

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualifications Pack- Dryer

SECTOR: Handicrafts and Carpet

SUB-SECTOR: Carpet

OCCUPATION: Processing

REFERENCE ID: HCS/Q5403

ALIGNED TO: NCO-2004/NIL

Dryer: The task of Dryer is to arrange, spread and finally to ensure carpet is fully dried after rinsing either naturally in an open atmosphere under direct sunlight or using special carpet drying machine for the purpose

Brief Job Description: The Dryer is a job role responsible for drying of carpet after rinsing. The drying is accomplished either by spreading carpets on floor and allowing it to stay under natural direct sunlight for sufficient time till it dries or by using special drying machine range for the purpose where the material is first hydro under rotating hydroextractor and then dried in heating chamber. The heat source for drying is derived mainly from fossil fuel like coal, wood, gas, oil etc.

Personal Attributes: The dryer should be patient and hard working. He should have colour sense to notice quickly any colour fading or abnormal changes in hue, tones etc that might take place while the carpet is left to dry under direct sunlight or drying machine.

Performance Criteria	As described in the relevant OS units			

Keywords /Terms	Description	
Definitions	Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
	Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
	Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
	Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
	Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
	Sub-functions	Sub-functions are sub-activities essential achieving the objectives of the function.
	Job role	Job role defines unique set of functions that together form a unique employment opportunity in an organization.
	Occupational Standards (OS)	OS specify the standards of performance an individual must achieve consistently while carrying out a function at the workplace. Occupational Standards as set of competencies is applicable both in Indian and overreaching global contexts.
	Performance Criteria	Performance Criteria defined for a task are statements that together specify the standard of performance while carrying out the task.
	National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in Indian context.
	Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
	Qualifications Pack(QP)	Qualifications Pack comprises set of OS, together with the educational, training and other criteria that are required to perform a job role satisfactorily at workplace. A Qualifications Pack is assigned a unique qualification pack code for clear identification.
	Knowledge and Understanding	Knowledge and Understanding are statements which together as a set specify the technical, generic, professional and organization specific knowledge that an individual needs to possess in order to perform and meet the required standards consistently.
	Organizational Context	Organizational Context includes the way the organization is structured and how it operates. It includes elements of operational knowledge

	contents defined in relation to functioning of an organization that a skilled professional need to possess specific to its precise areas of responsibility.
Technical Knowledge	Technical Knowledge is the specific domain knowledge needed to accomplish the task in combination with other competencies. It is usually coined with specifically designated roles and responsibilities.
Core Skills/Generic Skills	Core Skills or Generic Skills as set are group of skills. It is key to working in today's world. These skills are typically needed in any work environment. In the context of the OS, these include mainly communication related skills that are applicable to most job roles.
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.

Acronyms

National Occupational Standard

Overview

This unit is NOS describes about the skills, tools, techniques and knowledge required to accomplish the task of drying of carpets after washing and rising with no adverse effects on quality.

HCS/N5403

Executing the Process of Drying

National Occupational Standard

Unit Code	HCS/N5403
Unit Title (Task)	Executing the Process of Drying
Description	This unit is about inventory of skills, knowledge, tools, techniques and machines needed for execution of the task of drying of carpets.
Scope	This unit/task covers the following: <ul style="list-style-type: none"> Carry out preparatory activities to drying Drying under natural sun light Operation of Specialty Hydroextractor machine range Drying of materials with specialty carpet drying machine range Checking and Inspection for Drying Effectiveness and Product Quality
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Carrying out preparatory activities to Drying	<p>PC1. Understand the material composition for carpet e.g. woolen, viscose, silk etc</p> <p>PC2. Understand the colour and colour fastness to light e.g. fading of colours under direct/indirect sun light</p> <p>PC3. Assess time of drying based on existing material composition, day light condition, intensity of light etc.</p> <p>PC4. Check for stains, dust, dirt etc still left on carpets</p> <p>PC5. Use proper PPE like "hand gloves" to ensure no marks are put on carpet</p>
Carrying out the process of Natural Drying	<p>PC6. Check the floor is clean and free from soiling</p> <p>PC7. Ensure the carpet in roll form after rinsing is left to stand for a day or so (to release maximum water expediting next step of drying under sun)</p> <p>PC8. Ensure proper spreading of carpets in straight rectangular fashion with no distortion or fold or kink</p> <p>PC9. Monitor drying by intermittent checking for any change in colour, if any</p> <p>PC10. Take actions if any change in colour is perceived or noticed</p> <p>PC11. Monitor by intermittent checking to avoid overdrying</p>
Operating Hydroextractor range	<p>PC12. Understand the work instructions for the process</p> <p>PC13. Aware of the safety and control switches installed on the machine</p> <p>PC14. Ensure machine is clean and empty</p> <p>PC15. Load the carpet from trolley/batch</p> <p>PC16. Ensure the material is in suitable form as per machine instruction manual</p> <p>PC17. Ensure carpets are placed uniformly and evenly with no kink or distortion</p> <p>PC18. know the operations of the hydroextractor machine range</p> <p>PC19. Load the material as per material special instruction, if any</p> <p>PC20. Run the machine for machine speed and time as per instruction</p> <p>PC21. Take out material either on batch or trolley</p>
Operating Carpet Drying machine	<p>PC22. Understand the work instructions for the process</p> <p>PC23. Aware of the safety and various controls installed on the machine</p>

HCS/N5403

Executing the Process of Drying

	<p>PC24. Ensure machine is clean and empty</p> <p>PC25. Open the door and load the carpet from the batch/trolley or as per rack made for hanging of materials or as per instruction specific to machine type and design</p> <p>PC26. ensure carpet is crease free and evenly spread onto the machine with no distortion</p> <p>PC27. Understand the operations of the drying machine range</p> <p>PC28. Can read & understand the process being followed to do the task</p> <p>PC29. set the required temperature for the drying chamber</p> <p>PC30. Close the lid/door of the machine and switch on heating for defined time</p> <p>PC31. take out carpet either on batch or trolley</p> <p>PC32. check moisture content for the dried carpet</p> <p>PC33. Adjust machine parameter for optimum results</p>
Maintenance of Machine Range	<p>PC34. make sure the machine is kept clean at all times when not in use</p> <p>PC35. Use right lubrication and implement oiling schedule for the machines</p> <p>PC36. follow the preventive maintenance schedule & ensure the machine is running smoothly</p> <p>PC37. check that all controls are functioning properly</p>
Checking carpet after drying	<p>PC38. Check each carpet 100% for fading/change in colour of any shade comparing for hues and tones with standard sample</p> <p>PC39. In case any perceptible change is noticed, show it to supervisor</p>
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company/ organization and its processes)	<p>KA1. general rules and regulations in a carpet processing section</p> <p>KA2. Safe working practices</p> <p>KA3. The process of drying and how it is affected by previous processes and how it affects subsequent processes</p> <p>KA4. Basic knowledge about dyes, chemicals and substrates of dyeing</p>
B. Technical Knowledge	<p>KB1. Type of fiber, yarn and carpet being processed</p> <p>KB2. Understandings about:</p> <ul style="list-style-type: none"> • Material composition of carpet • Process parameters for machine range for hydroextraction and drying chamber • Machine parameters for machine drying range • Control functions on machines • types of drying defects and their remedy • Light and Sublimation Fastness of dyes <p>KB3. process flow in handmade carpet manufacturing processing sector</p> <p>KB4. importance of marking/coding/labelling etc followed at various process stages for identification and traceability</p> <p>KB5. importance of cleanliness at workplace</p> <p>KB6. Explain difference between correctable and non-correctable drying faults</p> <p>KB7. Acceptable solutions for specific faults identified/detected</p> <p>KB8. Method to make use of the information detailed in specifications and Work instructions</p>

HCS/N5403

Executing the Process of Drying

	KB9. moisture contents in the dried carpet as per quality
Skills (S) [Optional]	
A. Core Skills/ Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. prepare status and progress reports SA2. write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors regarding grammar or sentence construct
	Reading Skills
	The user/individual on the job needs to know and understand how to: SA3. keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets
	Oral Communication (Listening and Speaking skills)
B. Professional Skills	The user/individual on the job needs to know and understand how to: SA4. discuss task lists, schedules, and work-loads with co-workers SA5. keep co-workers and supervisors informed about progress
	Decision Making
	The user/individual on the job needs to know and understand how to: SB1. make decisions pertaining to the concerned area of work
	Plan and Organize
	The user/individual on the job needs to know and understand: SB2. plan and organize service feedback files/documents
	Customer Centricity
	The user/individual on the job needs to know and understand how to: SB3. manage relationships with customers SB4. build customer relationships and use customer centric approach
	Problem Solving
	The user/individual on the job needs to know and understand how to: SB5. think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s) SB6. identify immediate or temporary solutions to resolve delays
	Analytical Thinking
The user/individual on the job needs to know and understand how to: SB7. use the existing data to arrive at specific data points	
Critical Thinking	

HCS/N5403

Executing the Process of Drying

	The user/individual on the job needs to know and understand how to: SB8. apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

	The user/individual on the job needs to know and understand how to: SA3. keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets
	Oral Communication (Listening and Speaking skills)
	The user/individual on the job needs to know and understand how to: SA4. discuss task lists, schedules, and work-loads with co-workers SA5. keep coworker and supervisor informed about progress
B. Professional Skills	Decision Making
	The user/individual on the job needs to know and understand how to: SB1. make decisions pertaining to the concerned area of work
	Plan and Organize
	The user/individual on the job needs to know and understand: SB2. plan and organize service feedback files/documents
	Customer Centricity
	The user/individual on the job needs to know and understand how to: SB3. manage relationships with customers SB4. build customer relationships and use customer centric approach
	Problem Solving
	The user/individual on the job needs to know and understand how to: SB5. think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s) SB6. identify immediate or temporary solutions to resolve delays SB7. Take appropriate decisions related to responsibilities SB8. Follow the given standards SB9. Procedure to comply with the standards SB10. Plan and manage work routine based on company procedure SB11. Positively influence your team members into follow procedures as required SB12. Participate and influence your organization's response towards these procedures
	Analytical Thinking
	The user/individual on the job needs to know and understand how to: SB13. use the existing data to arrive at specific data points
	Critical Thinking
	The user/individual on the job needs to know and understand how to: SB14. apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

HCS/N9909

Comply with industry and organizational requirements

NOS Version Control

NOS Code	HCS/N9909		
Credits (NSQF)	TBD	Version number	1.0
Industry	Handicrafts and Carpet	Drafted on	30/04/15
Industry Sub-sector	Carpet	Last reviewed on	27/05/15
Occupation	Processing	Next review date	26/05/16

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role Dryer

Qualification Pack HCS/Q5403

Sector Skill Council Handicrafts and Carpets

Guidelines for Assessment

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 70% in every NOS
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

		Marks Allocation			
		Total Mark (325+125)	Out Of	Theory	Skills Practical
1. HCS/N5403 - Executing the Process of Drying	PC1. Understand the material composition for carpet e.g. woolen, viscose, silk etc	125	5	0	5
	PC2. Understand the colour and colour fastness to light e.g. fading of colours under direct/indirect sun light		7	4	3
	PC3. Assess time of drying based on existing material composition, day light condition, intensity of light etc.		3	1	2
	PC4. Check for stains, dust, dirt etc still left on carpets		2	0	2
	PC5. Use proper PPE like "hand gloves" to ensure no marks are		2	0	2

put on carpet			
PC6. Check the floor is clean with/without synthetic fabric to protect against soiling	2	0	2
PC7. Ensure the carpet in roll form after rinsing is left to stand for a day or so (to release maximum water expediting next step of drying under sun)	1	0	1
PC8. Ensure proper spreading of carpets in straight rectangular fashion with no distortion or fold or kink	2	0	2
PC9. Monitor drying by intermittent checking for any change in colour, if any	2	0	2
PC10. Take actions if any change in colour is perceived or noticed	3	1	2
PC11. Monitor by intermittent checking to avoid overdrying	2	0	2
PC12. Understand the work instructions for the process	6	2	4
PC13. Aware of the safety and control switches installed on the machine	5	2	3
PC14. Ensure machine is clean and empty	2	0	2
PC15. Load the carpet from trolley/batch	2	0	2
PC16. Ensure the material is suitable form as per machine instruction manual	2	0	2

PC17. Ensure carpets are placed uniformly and evenly with no kink or distortion	2	0	2
PC18. know the operations of the hydroextractor machine range	3	1	2
PC19. Load the material as per material special instruction, if any	2	0	2
PC20. Run the machine for machine speed and time as per instruction	1	0	1
PC21. Take out material either on batch or trolley	1	0	1
PC22. Understand the work instructions for the process	6	2	4
PC23. Aware of the safety and various controls installed on the machine	5	2	3
PC24. Ensure machine is clean and empty	2	0	2
PC25. Open the door and load the carpet from the batch/trolley as per rack made for hanging of materials or as per instruction specific to machine type and design	2	0	2
PC26. ensure carpet is crease free and evenly spread onto the machine with no distortion	1	0	1
PC27. Understand the operations of the drying machine range	5	2	3
PC28. Can read & understand the process being followed to do	6	2	4

	the task			
	PC29. set the required temperature for the drying chamber	2	0	2
	PC30. Close the lid/door of the machine and switch on heating for defined time	2	0	2
	PC31. take out carpet either on batch or trolley	1	0	1
	PC32. check moisture content for the dried carpet	5	2	3
	PC33. Adjust machine parameter for optimum results	4	2	2
	PC34. make sure the machine is kept clean at all times when not in use	7	2	5
	PC35. Use right lubrication and implement oiling schedule for the machines	3	1	2
	PC36. follow the preventive maintenance schedule & ensure the machine is running smoothly	5	2	3
	PC37. check that all controls are functioning properly	3	1	2
	PC38. Check each carpet 100% for fading/change in colour of any shade comparing for hues and tones with standard sample	5	2	3
	PC39. In case any perceptible change is noticed, show it to supervisor	4	1	3
	Total	125	32	93

2. HCS/N9906 - Maintain workarea, tools and machines

PC1. handle materials, machinery, equipment and tools with care and use them in correct way		13	5	8
PC2. Use correct lifting and handling procedures		5	2	3
PC3. maintain clean and hazard free working area		5	2	3
PC4. carry out running maintenance of within agreed schedules		5	2	3
PC5. carry out maintenance and/or cleaning within one's responsibility	50	5	2	3
PC6. report unsafe equipment and other dangerous occurrences		5	2	3
PC7. use clean equipment and methods appropriate for the work to be carried out		2	2	0
PC8. dispose of waste safely in the designated location		5	2	3
PC9. store equipment safely after use		5	2	3
	Total	50	21	29
3. HCS/N9908 - Working in a team				
PC1. Be responsible for one's own action and role		5	2	3
PC2. Perform all roles with full commitment		5	2	3
PC3. Be effective and efficient at workplace	50	7	2	5
PC4. Communicate effectively about company policies and expectations		7	2	5
PC5. Report problems faced during the process		4	1	3

	PC6. Talk politely with team members, sub-ordinates, superiors and colleagues		4	1	3
	PC7. Adapt to different work situations		5	1	4
	PC8. Give due importance to others' point of view		3	1	2
	PC9. Avoid conflicting situations		6	1	5
	PC10. Collaborate with colleagues performing the pre-required and post-required tasks as extra from defined span of tasks		4	1	3
		Total	50	14	36
4. HCS/N9907 - Maintain Health, Safety and Security at Workplace	PC1. Comply with health and safety related instructions applicable to the workplace	75	4	1	3
	PC2. Use and maintain personal protective equipment such as "Nose Mask" etc. as per protocol		3	1	2
	PC3. Carry out own activities in line with approved guidelines and procedures		5	2	3
	PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants		3	1	2
	PC5. Follow environment management system related procedures		3	1	2
	PC6. identify and correct (if possible) malfunctions in machinery and equipment		3	1	2

PC7. Report any service malfunctions that cannot be rectified	3	1	2
PC8. Store materials and equipment in line with organisational requirements	4	1	3
PC9. Safely handle and remove waste	4	1	3
PC10. Minimize health and safety risks to self and others due to own actions	4	1	3
PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks	4	2	2
PC12. Monitor the workplace and work processes for potential risks and threat	8	2	6
PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned	5	1	4
PC14. Report hazards and potential risks/threats to supervisors or other authorized personnel	5	2	3
PC15. Participate in mock drills/evacuation procedures organized at the workplace	6	2	4
PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so	2	0	2
PC17. Take action based on instructions in the event of fire, emergencies or accidents	3	0	3

	PC18. Follow organisation procedures for shutdown and evacuation when required		6	2	4
		Total	75	22	53
5. HCS/N9909 - Comply with industry and organizational requirement	PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures	25	7	2	5
	PC2. Seek and obtain clarifications on policies and procedures, from your supervisor or other authorized personnel		6	1	5
	PC3. Apply and follow these policies and procedures within your work practices		4	0	4
	PC4. provide support to your supervisor and team members in enforcing these considerations		4	1	3
	PC5. Identify and report any possible deviation to these requirements		4	1	3
			Total	25	5
